Say Soviets Threatened To Hang Yank In Armenia

By JOHN BAUSMAN
WIESBADEN, Germany (AP) — Soviet civilians threatened to hang one of nine U.S. airmen shot down in Soviet Armenia, and roughed up others, a U.S. Air Force colonel said today.

Col. Dale D. Brannon of Chardon, Ohio, senior officers aboard the unarmed transport plane that was shot down in flames June 27, said Maj. Bennie A. Shupe of Miami, Fla., narrowly escaped being lynched.

"The rope was attached to a telephone pole and the noose was being placed over his head when he managed to convey to the men the fact that he was an American," Brannon told a crowded news conference.

Had Rough Treatment
"The group then passed for a discussion. It was at this time that the Soviet military police arrived and took him into custody."

Brannon said five of the nine airmen aboard the transport received rough treatment from the local population after they bailed out of the burning plane.

"My hands were tied behind my back and I was beaten in the face by fists and later kicked in the body when placed aboard a truck for transport to the local village," Brannon said.

Major Badly Beaten
The four crewmen who landed with the plane and were picked up by Soviet soldiers were not molested, he said.

Maj. Shupe said he was badly captured him.

He added: "Later when they tried to hang me on a telephone pole I shouted 'New York-Chicago' to make them understand I was an American. While hanging preparations were still going on, one man shouted something, 'I don't know what, but it stopped them.'"

The five airmen who were roughly treated by Russian civilians said they were in the hands of the peasants for two to three hours before being handed over to military authorities. Those who received rough treatment in addition to Col. Brannon and Maj. Shupe were:

Maj. Robert E. Crans of Macon, Mo., A-2C. Earl H. Reamer of St. Louis Park, Minn., and A-2C. Peter N. Sabo of Chicago.

Sabo said the peasants tied his hands despite the painful burns suffered in the flaming aircraft on his right arm.

PROPERTY NOT SOLD

The mountain home two miles west of Cashtown on the Lincoln Highway offered at public sale by William C. Decker Wednesday evening was withdrawn when bids did not reach sufficient amounts. The top bid received was \$6,500. At the sale of household goods prices were "good." A large corner cupboard brought \$72.50.

Lt. Troxell Takes Company Command

Second Lt. William E. Troxell, executive officer for Company A of the 313th Infantry Regiment, Tuesday evening became the temporary commander of the unit for 17 weeks while 1st Lt. Robert W. Black, Carlisle, is attending the Fort Benning Infantry School, Ga.

Lt. Black assumed command of the unit on August 14, 1957, and received his promotion to first lieutenant while commander of the local unit. He is a veteran of the Korean War.

Lt. Troxell was named executive officer of the unit on July 9, 1957. He had also served as executive officer for the unit from April to August 1955, following which he was transferred by his employer to Reading, where he served as executive officer of Company I of the 315th Infantry Regiment.

Second Lt. Richard L. Darr, Carlisle, is also a member of a local unit. He serves as training officer since his assignment to the unit early this year.

NEW CUSTODIAN AT COURT HOUSE; GEIMAN RETIRES

Theodore U. "Tug" Geiman, 155 S. Washington St., Wednesday retired as custodian of the Adams County Court House at a ceremony held for him in the office of the county commissioners.

Geiman and his successor as court house custodian, former Sheriff Dorsey J. Schultz, were both present for the party attended by most of the county officials and court house employees.

E. Donald Scott, chairman of the commissioners, praised Geiman for his work at the court house for the last 7½ years and wished him "enjoyable retirement."

The 69-year-old mechanic said his plans include a trip to California.

Five-Pound Cake

A native of Chambersburg, Geiman came to Gettysburg in 1922 as a mechanic with Church and Cullison, who then had the Ford agency on York St. He left their employ in 1924 to join the H. and H. Machine shop as a mechanic and continued there for 20 years. Later he worked for a time with the Heller and Keller garage and the Gettysburg Ice and Storage Co. before becoming court house custodian.

A number of changes at the court house attest to Geiman's skill as a mechanic and carpenter. His most recent work was a complete changing of shelving in the vault in the commissioners' office and placing of shelving in the office of the chief assessor.

A five-pound cake, inscribed with the wording "Good Luck, Tug," and a purse of \$25 were presented to Geiman at the close of the farewell party at the court house.

BULLETINS

SOPHIA, W. Va. (AP) — Three veteran miners of the Slab Fork Coal Co. were trapped early today deep in a mine by an explosion.

A. L. Walker, general manager, said chances were slim of finding the men alive. The three were Herbert Cline, about 42, a foreman; Sam Sawyer, about 54, and Walter Moore, about 38.

GUANTANAMO, Cuba (AP) — Adm. Jerauld Wright, commander of the U. S. Atlantic fleet, flew into the U. S. Navy base here in a jet plane today to make a first hand check on the delay by Cuban rebels in releasing 30 captive U. S. servicemen and a Canadian.

In Havana, hopes ran high at the U. S. embassy that some of the servicemen would be released shortly.

"Top Notch" Local Army Reserve Unit Is Recruiting New Members

An opportunity to be a member of a "top-notch" Army Reserve unit is being offered to the young men of Gettysburg and surrounding areas by Company A of the 313th Infantry Regiment.

Those looking for such an opportunity should visit the local unit at the Reserve Center on Queen St. on a Tuesday evening between 7:45 and 10 o'clock. An officer or a non-commissioned officer will be on hand to explain the procedures for joining.

At present, enlistments are limited to men with prior military service or those who, having been separated from active duty, have a reserve obligation.

"Best In Regiment"

The unit is, however, maintaining a list of all applicants even though they do not meet the present enlistment requirements so that they may join as soon as word is received from higher headquarters indicating that the present limitations are lifted.

During two weeks of summer training at Indian-town Gap last month, Company A repeated a 1957 performance by taking honors as "best company in the 313th Regiment." The company's drill team at the Gap this year took top honors in battalion and regimental competition and placed second in the 79th Division. Members of the company carried off high individual honors during the 15-day training period.

Built Training Aid
One of the things that helped Company A win the title of "best in the regiment" was the construction of an illuminated training aid. The aid was used in the briefing of the troops during a night rehearsal of ROCID (Reorganization of the Current Infantry Division) formations.

Second Lt. William E. Troxell, the unit's executive officer, pointed out the need for such an aid but it was M. Sgt. John D. Lawver, M. Sgt. Harry C. Dick, M. Sgt. James E. Sneringer, and Sgt. Richard B. Yinsling who took the idea and, without any type of plan or blueprint, built it.

Air Force Hopes To Recover Live Mouse In Rocket Fired Wednesday Night, Canaveral

CAPE CANAVERAL, Fla. (AP) — Preliminary reports today indicated that the chances are good for recovering a live mouse hurled through space in the advanced nose cone of a Thor-Able rocket Wednesday night.

The Air Force announced 15 minutes after what appeared to be a perfect launching that preliminary data showed the missile performed satisfactorily.

It still was too early to tell, however, whether the towering two-stage rocket was the first U. S. ballistic weapon to travel 6,000 miles or more through space.

Search For Nose Cone

The mission was to recover the nose cone and its live passenger if they survived the fiery plunge through the earth's atmosphere from outer space.

A successful test also would prove the performance of the two stages which reportedly will play a key role in three Air Force moon probes. A three-stage version of the Thor-Able probably will be used in the first lunar shot expected in a month or so.

The same Douglas Aircraft Co. team which handled Wednesday night's launching will control the first Air Force flight toward the moon.

Ship Spotters
A fleet of Air Force telemetry ships was stationed near Ascension Island off the African coast to spot the nose cone as it dropped into the depths.

Only the Snark, a jet-propelled missile that travels only at 600 m.p.h., has covered the intercontinental distance up to now. It is not a space weapon, however.

The test rocket — a Douglas Thor intermediate range missile coupled with a modified Vanguard second-stage vehicle — streaked into the starlit Florida sky with an ear-splitting roar and a flash of yellow flame.

Seemed Normal
The rocket seemed to function normally during the three minutes it was in view to press observers a mile and a half from the launch site.

If he survived the 30-minute trip, the tiny white mouse would be a prize patient for researchers.

HARTMAN SETS FESTIVAL GROSS NEAR \$20,000

Gross receipts from the festival and solicitation held in connection with the 95th Anniversary of the Battle of Gettysburg total "about \$20,000," General Chairman Hartman reported Wednesday evening at a meeting of the Gettysburg Fire Department at the former CCC camp on W. Confederate Ave.

Some donations are "still coming in," Hartman said in explaining that he could not make a final report at the present time. Normally, with the expenses of the celebration including parade prizes, etc., the fire department has a "profit" of about 40 per cent of the gross receipts. The money so raised helps carry on the work of the department during the year, pays for the equipment of the department and helps provide funds for the development of the Recreation Park through permanent installations there such as the new kitchen built by the firemen this year, the dining hall scheduled for construction next year, and the lights placed two years ago. Part of the receipts also go into an equipment fund for eventual replacement of present fire engines, ambulances, etc., operated by the fire department.

Name Delegates
Ten delegates and ten alternates were selected by the department to represent it at the Adams County Volunteer Firemen's Association convention August 9 at Bendersville. Named as delegates were Chester Small, Joseph Sanders, C. Arthur Brame, Robert Heyzer, Harvey Gastley, Paul Woodward, James Munshour, G. Henry Roth, Clarence Chalk and Harold Culp. Selected as alternates were Billy Shealer, Donald Staub, Frank Linn, Robert Hartman, William DeHaas, Thomas Cole, John DeHaas, William G. Weaver, Donald Folkenroth and Paul B. Fox. The department voted to send the delegates to the convention "uninstructed" concerning plans to increase the association dues.

John Lawver, E. Middle St., was accepted as a new member of the department.

Business Cut Short

President Harold W. Culp kept business at a minimum for the session which traditionally is a "feed" provided by the chairman of the various committees of the battle anniversary programs. The July "feed" meeting is also traditionally the session to which are invited as guests a number of men who during the battle anniversary program aided the firemen in many ways.

Among the guests introduced on Wednesday were Judge W. C. Sheely, Paul L. Roy, Maj. Gen. John Weikert, Dean Seymour Dunn, Dr. Frederick Tilber, M. Sgt. Anthony J. Navakis, Carl Menchey and these members of other fire departments: David Reaver, George Lambert, Bernard Miller, Roy Kuykendall, Donald Wright, Sterling Roth, Glenn Rex, James Cover, Charles Bretzman, Francis Eck, Eugene Smith, Clyde Swartz, Francis Wildasin, Paul Null and Jess Hoffman.

BREMEN, Ind. (AP) — Robert Earl Hughes, 32, possibly the heaviest man in medical history, died today in his trailer home parked beside Bremen Community Hospital.

Mrs. Mary Harris, hospital administrator, said uremia evidently was the cause of the 1,041-pound man's death.

He became ill while traveling with a carnival and was brought to this northern Indiana town Sunday, suffering from a variety of ailments, including measles and a heart condition.

He could not be taken into the hospital building because of his massive bulk, too great for any standard bed. He remained in his traveling house, built on a truck bed, and nurses climbed a ladder to attend him.

Hughes was 10 feet 2 around the waist, 40 inches around each upper arm, and 6 feet tall.

PLANS INQUEST IN SLAYING OF WOMAN MONDAY

Dr. C. G. Crist, Adams County coroner, today selected a jury to conduct an inquest Monday into the death of Mrs. Jessie Jean Light, 41, Hanover, whose beaten and stabbed body was found Monday night near Hanover stuffed into the trunk of a parked car.

Francis Norman Light, 50, a Hanover truck driver, is charged with murder in connection with the death of his wife and has been confined to the Adams County jail since Tuesday.

Mrs. Light is said by police to have been fatally stabbed by a parking knife which cut a large artery in her left leg during a squabble between the husband and wife in Mt. Joy Twp. in the Barlow area Monday afternoon.

At Court House

The coroner's jury which will hear the evidence, will convene Monday afternoon at 4 o'clock in the court room at the Adams County court house to find "in what manner and by what means Jessie Jean Light came to her death."

Members of the jury were listed by Dr. Crist today as G. Henry Roth, Glen Shriver, Ralph Spence, Harold Ecker, Frank Linn and Clyde DeHaas.

While the coroner was preparing for the inquest state police were continuing their investigations into details connected with the death.

Light gave police many particulars about the events prior to and after the death of his wife and officers today continued the patient checking out of each detail in order to prepare the case for presentation to the coroner's jury and to grand and petit juries later.

PUERTO RICAN BIBLE STUDENT WORKING HERE

A young man who came to the United States to play baseball "but never quite made it" and then went on to serve in the Korean conflict has begun work in Adams County as chaplain for migrant workers under the direction of the Pennsylvania Council of Churches and the supervision of the Committee on Migrant Work of the Adams County Ministerial Association. The young man is Manuel Rodriguez.

Born in Ponce, Puerto Rico, Rev. Mr. Rodriguez was one of a family of seven children. His father is a merchant in that industrial city of southern Puerto Rico. Manuel followed the dream of many Puerto Rican young men to come to the States to make the big leagues but he found himself operating a screw machine instead of swinging a bat. Then came Korea. For 13 months he served in that conflict. He ended his service guarding Red Chinese prisoners.

Upon his return to this country, he enrolled in Shelton Bible School in New York and studied there for two years with plans to serve in Spain. Rev. Rodriguez has continued his education in Barrington Bible College, Providence, R. I., where he is a junior.

His Second Year Here

This is the second year that Rev. Rodriguez has served the migrants of Adams County. Last year he worked with more than 700 men. He held 25 religious services, carried on hospital visitation, personal counseling and a full program of recreational activity. Plans for this year call for a more intensive, better organized program.

The work is under the direct supervision of the Migrant Committee of the Adams County Ministerial Association and an executive committee of the Rev. Norman L. Marden of the Bendersville Methodist Church, Miss Jean Thomas of Biglerville and Donald Wenk of Aspers R. 1.

ZETTLE ADVISES SPRAY PROGRAM AGAINST MILDEW

Peach powdery mildew has become a severe problem in a few orchards and is still spreading on fruit. County Agent Frank Zettle said today in sending a special "mildew control" letter to fruit growers of the county.

The special mildew spray should be applied 14 days after the third cover spray and should be used only on those midseason and late varieties that will be not harvested for at least a month after the application.

Per 100 gallons of spray growers may use two pounds of Captan 50% WP plus two pounds of wettable sulphur. For concentrate sprays six pounds of Captan and four pounds of the sulphur should be used.

Apple Cover Spray
Or growers may use only wettable sulphur in quantities of six pounds for dilute, 18 pounds for concentrate sprays.

The fifth cover spray for apples is called for in another letter sent growers by Zettle. The county agent reported "some codling moth larvae are still entering apples and second generation adults are also appearing. Both European and spotted mites are present in most orchards and can increase rapidly in hot water. Second generation leaf rollers are fairly common in many orchards. Scab is under good control in most orchards, a problem in a few. Sooty blotch and fruit rots are threats in all orchards when wet weather occurs. The fifth cover spray is to be applied 12 to 14 days after the start of the last spray."

Two different sprays are recommended. One consists of two pounds of a 50 per cent wettable powder DDT, two pounds of Aramite 15-W and 1 1/2 pounds of Captan 50 per cent wettable powder. If a 12 1/2 per cent wettable powder DDT is used instead of the Aramite, the proportions should be 1 1/2 pounds of DDT, 1/2 pound Guthion and 1 1/2 pounds of Captan. For concentrate sprays all materials should be tripled.

The mouse was nicknamed "Mia II" for "Mouse in Able."
The original "Mia" died when the first Thor-Able rocket became lost in space and apparently plunged into the Atlantic last April 28.

Re-entry Problem
Rocket experts believe that the intermediate re-entry problem was solved when an Army Jupiter nose cone was recovered intact from the ocean after it plummeted back from space at a speed of 9,000 m.p.h.

The nose cone, which may appear head the missiles of tomorrow, was equipped with special gear to help pinpoint its location at sea. An automatically released parachute helped the cone glide gently to the water. Then a radio transmitter, blinker lights and a dye marker would lead searchers to the scene.

The Thor-Able, which stands more than 80 feet tall, uses about 100,000 pounds of thrust to put the nose cone toward its ballistic course. Then it soars through space under its own power.

GOLDFINE NOT TALKING ABOUT TWO BIG CHECKS

WASHINGTON (AP)—Bernard Goldfine refused today to tell House investigators why he issued two checks totaling \$176,962.64 last year. The congressmen threatened to subpoena his books.

Chairman Oren Harris (D-Ark) of the House subcommittee hearing Goldfine for the fourth day gave the Boston Industrialist a choice—either answer the question or have his books subpoenaed for committee inspection.

"On advice of counsel, I can't answer," Goldfine said.

Amount Is Listed
The checks in the controversy were one for \$63,365.35 issued March 26, 1957, and one for \$113,597.29 issued April 30, 1957, to the Yale Wool Waste Co. by one of Goldfine's textile mills, the Northfield firm.

Rep. John B. Bennett (R-Mich) said the Yale Co. was under investigation in 1957 on a mislabeling charge. He said Yale had sold some of the goods involved in the investigation to Northfield at a lower price than usual.

He demanded that Goldfine say whether the checks were supplied to Yale for any goods supplied to Northfield.

Checks Never Used
Goldfine said the checks were never used. He said they were deposited back into the bank by the Northfield firm. Therefore, he argued, they could not have been used for any purpose.

Bennett insisted that Goldfine say whether they were intended, when issued, to be used as a line of credit.

"I respectfully decline to answer," Goldfine replied. He said the question was not pertinent to the committee's investigation of Federal Trade Commission activities.

Threatens Subpoena
But Bennett insisted that it was pertinent. He asked Chairman Harris for a ruling.

Harris said he had no way of deciding whether the question was relevant or not if Goldfine refused to reply, and he added:

"It will be the purpose of the chairman to issue a subpoena for your books."

Ridiculous Attitude
Harris said "a lot of things could be done to clear the air."

One of them, he added, would be a look at Goldfine's books to see how he treated the checks, so the investigators could determine why the checks were issued, even though not used.

Harris chided Goldfine for what he called "a ridiculous attitude" in refusing to answer committee questions on grounds it was none of the committee's business.

He said it was a "lack of co-operation... and an unreasonable attitude to take."

The Congress members have some doubt in their own minds as to how far they can pursue the matter of \$777,000 in checks, some as old as 1941, that were still outstanding on Pilgrim Trust Co. (Boston) records as of May 7. They have ordered a legal study of the point.

"SILENCE PAYS"

Time to time I've uttered something which was misconstrued by some . . . phrases spoken without forethought . . . which, when analyzed, were dumb . . . these have caused me shaky moments . . . and embarrassment no end . . . for it's very hard to fathom . . . who are easy to offend . . . then again, some persons welcome . . . any chance to ridicule . . . those with chips upon their shoulders . . . like to make someone a fool . . . so after much trial and error . . . I am cautious when I speak . . . for I will not be regarded . . . as a man to turn his cheek . . . in a world where there are persons . . . who give reasons I must dread . . . I have found a silent mouth is . . . by and far the wisest head.

DODGERS ON
NOTICE THEY'VE
GOT TO CLIMB

LOS ANGELES (AP) — Dodger boss Walter O'Malley stormed home from the East Wednesday night threatening his cellar-dwelling team with a drastic shake-up.

"The players are hereby put on notice that changes will be made until we get the right combination," he told newsmen before Wednesday night's game with the Braves, which his charges promptly went out and won, 10-3.

He added:

"Replacements will come from any place we can obtain them — other major league clubs, our farm system, other minor league clubs."

Alston To Stay
How about Manager Walt Alston?

"He's our manager and he's going to stay. So far as I'm concerned, he gets a vote of confidence for the first half of the season and I'm not changing the party line at this time."

A reporter wanted to know if that meant Alston will be retained at least through the present season.

"Definitely," he answered. But he hedged when reporters pressed for more details.

print, constructed the training aid. Going to the junk yard at Indian-town Gap, the four non-commissioned officer's gathered scraps of lumber and metal for the construction of the training aid's frame. A gauze material was then fastened over the frame and on it was painted a map of the training area with grid lines, elevations.

Used Generator In Field
Next came the problem of purchasing Christmas tree lights in the middle of summer. M. Sgt. Lawer secured the lights and these were placed behind the gauze, each light representing a man in a ROTC formation.

Several sets of the Christmas tree lights had to be inserted in the training aid's electrical system for the aid was to show the movement of the troops, both that of the defending forces and that of the aggressor forces, as they took various positions of attack and defense in the training area. Also needed was an elaborate set of electrical switches to flash the lights on and off as the mock battle moved across the map.

Another problem faced the men. The training aid was to be used in an open field, about a mile from the nearest building. This they solved by securing a portable generator to furnish the electricity.

Earned Commendations

For their efforts and success the four men have been approved for official commendations and have received commendations from First Lt. Robert W. Black, Company A's commander. These become a part of their permanent military record.

One further distinction will come to the men, for a picture of the training aid and their names will be published in the history of the 79th Infantry Division.

SEATTLE (AP) — For Mrs. R. V. Hubbard of Seattle, a reunion with her mother Tuesday was short and tragic.

Mrs. Virginia M. Mitchell, 76, of San Diego had not seen Mrs. Hubbard for five years.

Stepping from a bus to spend the summer here, Mrs. Mitchell embraced and kissed her daughter. Then fatigue, emotion and age took their toll.

TWENTY YEARS AGO

President Roosevelt Dedicates
Eternal Light Memorial To Cause
Of Peace Before 200,000 As Climax
To 75th Anniversary Of Civil War
Battle: While the nation listened
Sunday President Roosevelt dedi-
cated on historic Oak Ridge and
everlasting memorial to peace in
America and then stood by while
friendly hands from the North and
the South brushed aside a barrier
to let the rays of the setting sun
— falling then on a Gettysburg
battlefield vastly different from
that of 75 years before — strike
the spark that set aglow an
eternal flame atop the memorial.

A throng conservatively esti-
mated at more than 200,000 persons,
that constantly was being
swelled by others arriving after
traffic delays on auto-clogged high-
ways, witnessed the brief but im-
pressive ceremonies marking the
dedication of the \$50,000 Eternal
Light Peace memorial.

Chief speaker at the simple
swept-up sun, President Franklin
D. Roosevelt turned to the "full-
ness and stature of Lincoln's
nature" for help in meeting the
continuing issue of preserving
under the changing conditions of
each generation "a people's gov-
ernment for the people's good."

P. O. Sends Out 116,141 Pieces
Of Mail In 4 Days: A flow of mail
at Gettysburg post office during
the 75th anniversary celebration
that approached proportions of the
Christmas holiday rush was re-
ported today by Postmaster C. A.
Williams who stated that the
volume of first class matter was
four to five times normal and that
some classes of mail were above
that ratio.

\$500,000 Of Anniversary Funds
Left: York, Pa. July 8 (AP) — About
a half million dollars appropriated
for the Gettysburg 75th Battle
Anniversary will be returned to
the federal government, Congress-
man Harry L. Haines, who spon-
sored the legislation, said today.

The federal government appro-
priated a total of \$1,181,000 toward
the celebration.

Haines said the War department
estimated the amount given on the
basis of acceptance that a larger
number of Blue and Gray would
be present than were actually able
to turn up.

Two College Graduates Wed:
Miss Grace Durban, youngest
daughter of Mr. and Mrs. Robert
Durban, Cumberland township,
near Mt. Joy Lutheran church, be-
came the bride of Knute Sahle,
son of Mr. and Mrs. John Sahle,
of New York City, in Bruns Chapel
Wednesday evening. The cere-
mony was performed by Dr.
Henry W. A. Hanson, college presi-
dent.

Today's Talk

THE FAMILY

The greatest unit in any nation
is the family. So much centers
about it. Most of those attaining
eminence have come from large
families. There are things learned
in a large family that influence
those who came from it, and there
is a reliance that the members of
a family gain that lasts through-
out life. Rarely does a single child
gain eminence.

A father and mother cannot be
honored too much. We owe to them
more than we can ever repay. The
sacrifices are never regretted and
their pride in their family binds
them to each member. Fortunately
are those who have been born into
a family where religious beliefs
have been taught. Time and time
again these beliefs come to give
us courage and to comfort us, di-
recting us through every emergency.

There is no other organization
quite so intimate and inspiring as
that of the family. Nations have
grown great because of it. Both
mothers and fathers deserve the
honor and love bestowed on them
on their "days" — but actually
every day is Mother and Father
Day! Much is written about the
teen-agers. Let them be brought
up in a kindly and happy atmos-
phere and there will be no prob-
lem.

Outside the teaching of religion
in a family, nothing thrills one
more than the living lessons that
are forever present in nature. The
wonderful lessons of all life itself
are revealed in nature. She is the
mother of us all. We should get
the habit of consulting her more,
and abide more in her everlasting
arms. Her earth garden is one of
beauty and mystery. She is God's
gardener!

Tomorrow Mr. Adams will talk
on the subject: "Praise"
Presented, 1958, by The George
Matthew Adams Service

Just Folks

ONE THING YOU CAN'T DO

You can laugh when trouble hits
you.
You can smile when clouds
appear.
You can grin when worry "gits
you"

And when disappointment's
near;
You can laugh when rain is
falling
If you are a cheerful soul,
But you cannot do much laughing
When the boat begins to roll.

You can bear up under sorrow,
You can calmly shoulder woe,
And perhaps no sign of anguish
Will your visage ever show;
You may hide all sign of
weakness
Though your hopes are in the
ditch,
But you cannot hide your feelings
When the boat begins to pitch.

Let the cheer-up poets tell you
To preserve a cheerful face,
And to smile at all your troubles,
And to never show a trace
Of the petty griefs that fret you;
But you'll lose your
self-control,
And you will not smile, I'll bet
you.
When the boat begins to roll.

COLLEGE YOUTHS TREK WEST BY COVERED WAGON

ENNIS, Tex. (AP)—Three ad-
venture-minded college students
from the Texas Gulf Coast
camped here Tuesday night on a
Beaumont-to-San Francisco-or-bust
trek by covered wagon.

Though outfitted in complete
cowboy regalia, they readily ad-
mitted they had never driven a
wagon, fixed a broken axle or
showed a mule or horse until they
headed west.

"We're learning and so are the
mules," said Jerry McElroy, 19,
Port Neches, Tex.

Trip For Fun
His companions are Bill Hick-
man, 18, Nederland, Tex., and Bob
Williams, 18, Grove, Tex. All three
are students at Lamar Tech at
Beaumont, about 326 miles from
here.

McElroy said they got the idea
for their trip after learning of a
trust fund that had been set up
for persons who traveled to Cal-
ifornia and settled.

When inquiries showed the fund
had been dissolved, they decided
to make the trip anyway for the
fun and experience. With some en-
terprise they won the backing of
the Highway 287 Assn.

NEW TV CONTEST COMING FRIDAY ON ABC NETWORK

By HOARD BENEDICT
Associated Press Staff Writer
NEW YORK (AP) — The summer has brought a deluge of television games.

Now comes a program that claims a sixth sense is a necessity.

It's the new ESP (for Extra-Sensory Perception) Show, which bows Friday night on ABC-TV. It will pit people with high degrees of purported ESP against one another in matches to see which contestant (while blindfolded) can most often properly identify unseen cards and symbols, and call the roll of dice.

Has Isolation Booth
There will be the usual isolation booth, and the weekly winner

will earn cash and the chance to continue on the show until defeated by someone with either greater mysterious powers or more luck. Each week five cards will be pulled from a 52-card deck and displayed face down. Home viewers can write in what they think the cards were, in the order they were pulled.

If they get everything right they win \$100,000.

Method Of Choice

Although program-creator George Wolf is a firm believer in ESP, he doesn't expect to have a home audience winner every week.

How will studio contestants be selected?

"Leading parapsychologists in the country have recommended outstanding subjects to us," said Wolf. "and several persons who have heard about the program have volunteered to be tested. We are screening them with one of the most simple of ESP devices—a deck of 13 cards.

"The subject is blindfolded. The cards—ace through king with no suit—are shuffled, and three of

them are picked at random and placed face up on a table. The subject then says what he thinks the three cards are, but is not required to give them in any particular order. This is done six times, which means a subject can correctly name a maximum of 18 cards. To insure against a subject's being lucky on one day—or having a bad day because of something he ate for lunch—this same test is repeated on six different days. Those who score the highest on this test will be our contestants."

Tests and experiments given on the program have been formulated by Dr. J. B. Rhine, director of the Duke University parapsychology laboratory. Dr. Carroll Nash, who holds a similar position at St. Joseph's College, Philadelphia, will be present at each program as consultant. Actor Vincent Price will be master of ceremonies.

Hydraulic rowing machines were first used in practice at Harvard in 1872.

SAYS PA. RULES BAR SOME TOP EDUCATORS AT STATE COLLEGES

By RICHARD L. GRAVES
HARRISBURG (AP) — A state education official indicated today that school code restrictions are barring some top-flight educators from state teacher college faculties.

Dr. George A. Hoffman, deputy superintendent of public instruction, said there is no question that the commonwealth's 14 teacher colleges have missed getting some able professors because of the restrictions.

However, he said, there is a trend toward liberalizing the legislative-imposed restrictions to allow the colleges to determine

their own requirements. The main restriction is one requiring any faculty member of a state teacher college to have at least two years experience teaching in public secondary or primary schools.

The net effect of the requirement has been to stop many college teachers, regardless of their other qualifications, from seeking posts on teacher college faculties within the two years of public school experience.

"The argument in favor of the restriction is that teacher colleges are designed primarily for preparing teachers," said Hoffman. "It has been the feeling that faculty members should have some experience in public schools."

Dr. Carl E. Seifert, also a deputy superintendent of public instruction, agreed that the restriction occasionally costs the teacher colleges a top instructor, but contended that the requirements "are set up, basically, for the protection of the public."

Hoffman added that debate on the requirement has centered on

whether actual public school teaching experience is vital in giving college-level instruction to teacher candidates. Opponents of the restriction argue that the emphasis should be on subject matter, not technique.

BERLIN (AP) — Nikita Khrushchev delivered his standard lecture tour address to the East Germans Tuesday night, dressed up with the new sharp note for Yugoslavia.

The Communist bloc is getting stronger and will defeat capitalism without war, the Soviet Premier said in the industrial town of Halle. "There is only one Socialist (Communist) country which is limping — Yugoslavia," he added.

GI's Parents May Visit Son's Grave After Tragic Failure

BELLEVILLE, N. J. (AP)—Mr. and Mrs. Carman Scoppetuoio want to be near their son once again, even if only for a little while.

Two years ago they traveled 3,000 miles to visit his grave—only to learn once they got there that they were in the wrong place. Now they hope the United States government will help them resume the sentimental journey they were forced to abandon because of lack of funds.

Killed In Action
The couple's son James was killed in action near the Rhine

in 1945. James, then 26, was a member of Gen. Patton's 3rd Army.

More than a decade later, Mr. and Mrs. Scoppetuoio scraped together enough money to make the trip to their son's grave.

They took \$1,540—their life savings—and went to the St. Laurent cemetery in Normandy, France, where government officials had told them their son was buried.

Funds Exhausted
But when they got there, they learned their son had been buried in Germany, near where he fell. Their funds exhausted, they were

forced to return home. The Scoppetuoios were heartbroken that they had been so near their son yet had been unable to visit his grave.

They appealed to Rep. Peter W. Rodino (D-N.J.), who said he would try to get the government to repay the \$1,540.

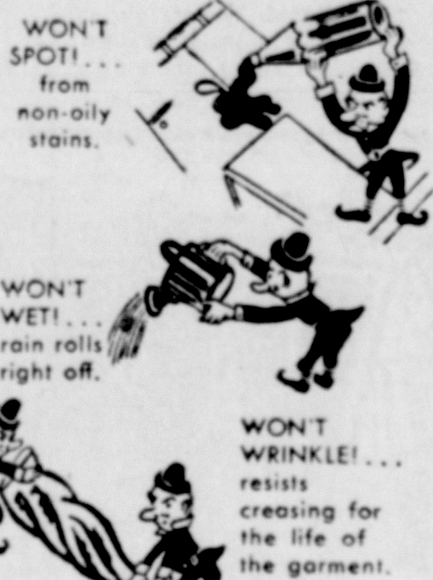

Bill Before Senate
Tuesday the House of Representatives passed a bill to reimburse them. The measure now goes to the Senate.

"It wasn't our fault we were sent to the wrong place," Mrs. Scoppetuoio said on receiving the news. "Maybe they can give us back our money."

She added: "We know they can't give us back our son."

CLARK WORKS FOR PA. FLOOD CONTROL MONEY

WASHINGTON (AP) — Sen. Joseph S. Clark (D-Pa.) has secured the promise of Senate leaders to work for the allocation of federal funds for rehabilitation of flood control dikes at Wilkes-Barre, Pa. The dikes were damaged by coal mine subsidence.

Clark raised the point after the Senate passed an omnibus flood control and navigation bill Wednesday. No specific appropriation was made for the Wilkes-Barre project.

Gets Promises
Sen. Dennis Chavez (D-NM) and Sen. Allen J. Ellender (D-La.) promised Clark they would look into the possibility of including the Wilkes-Barre funds in an emergency fund provided for operation and maintenance of such projects. Sen. Chavez is chairman of the Senate Public Works Committee, while Ellender heads the appropriations committee's subcommittee on public works.

Pennsylvania projects included in the Senate-passed bill:

Kinross Dam and Reservoir, \$1,000,000; Allentown, \$700,000; Bear

SENATE FOES OF IKE'S TRADE BILL WIN VICTORIES

By JOE HALL
WASHINGTON (AP) — Senate foes of President Eisenhower's reciprocal trade bill prepared today to offer new amendments in the Finance Committee after winning major victories in the first day's voting.

The advocates of greater protection for domestic industry succeeded Wednesday in cutting the extension of the trade law down to three years instead of the five asked by the President.

They also wrote into the measure two other amendments heavily opposed by the administration.

All of the votes were tentative but there appeared to be no chance administration supporters could reverse them in the committee.

May Finish Today
Chairman Harry F. Byrd (D-Va.) said he believed his group could complete its action on the measure today.

The initial committee vote for the three-year extension was 7-5 with three absentees. All three

State Sales Tax Is Near Estimates

HARRISBURG (AP) — The Revenue Department reports that sales tax revenue is coming close to equaling estimates despite a slump in the sale of automobiles and other hard goods.

The 3 per cent levy is the largest revenue producer in the Commonwealth.

The department said Wednesday that the sales tax produced \$218,200,000 during the 13-month period ending June 30 and came within 1.2 per cent of official estimates.

said later they also favor a three-year limit.

The same amendment would reduce the President's new tariff-cutting authority to 15 per cent instead of the 25 per cent he asked and was granted by the House.

Another amendment would limit the cut in any one year to 5 per cent.

The third change adopted would include additional industries under a provision which requires the President to take action against imports which threaten an industry deemed essential to national security.

Not less than half the conversation one hears is useless.

JUSTICE DEPT. GIVES RULINGS

HARRISBURG (AP) — A legal opinion that the state can join with the federal government in paying to have a mine fire extinguished was among several of the latest rulings by the Justice Department.

The ruling, issued Wednesday by Atty. Gen. Thomas McBride, paved the way for the award of a \$36,000 contract to extinguish a mine fire in Brinsford, Clearfield County.

Other new rulings by the Justice Department said:

Fines for truck overloading must be paid on the total overload without allowance for the three per cent overweight tolerance.

The State Council for the Blind may enter into contracts with sectarian hospitals for the care of blind persons.

The Liquor Control Board may promote its civil service employees without examinations upon approval of the Civil Service Commission.

GOP Plans 2 Big Campaign Kickoffs

HARRISBURG (AP) — Republican party officials are predicting a gigantic turnout for two Armstrong County events Saturday which will launch kick off the fall election campaign for the GOP's statewide candidates.

The Republican campaign is scheduled to start with a political rally at Kittanning Saturday morning. Arthur T. McGonigle, GOP gubernatorial candidate, will speak at the dedication of a new brick plant in Freeport in the afternoon.

After the Armstrong County appearances the Republican statewide candidates will go to Erie for the annual Young Republicans convention.

Strikers Give Roses To Picket Violators

CAMDEN, N.J. (AP) — Design and development engineers on the picket lines at two nearby plants of the Radio Corp. of America distributed roses today to women employees who crossed their lines.

A union spokesman said they had stocked up with some 4,000 buds and would also pass them out at the Camden plant as well as at Moorestown and Cherry Hill in Delaware Twp.

The strike, by some 1,800 members of the Assn. of Professional Engineering Personnel, is in its second day.

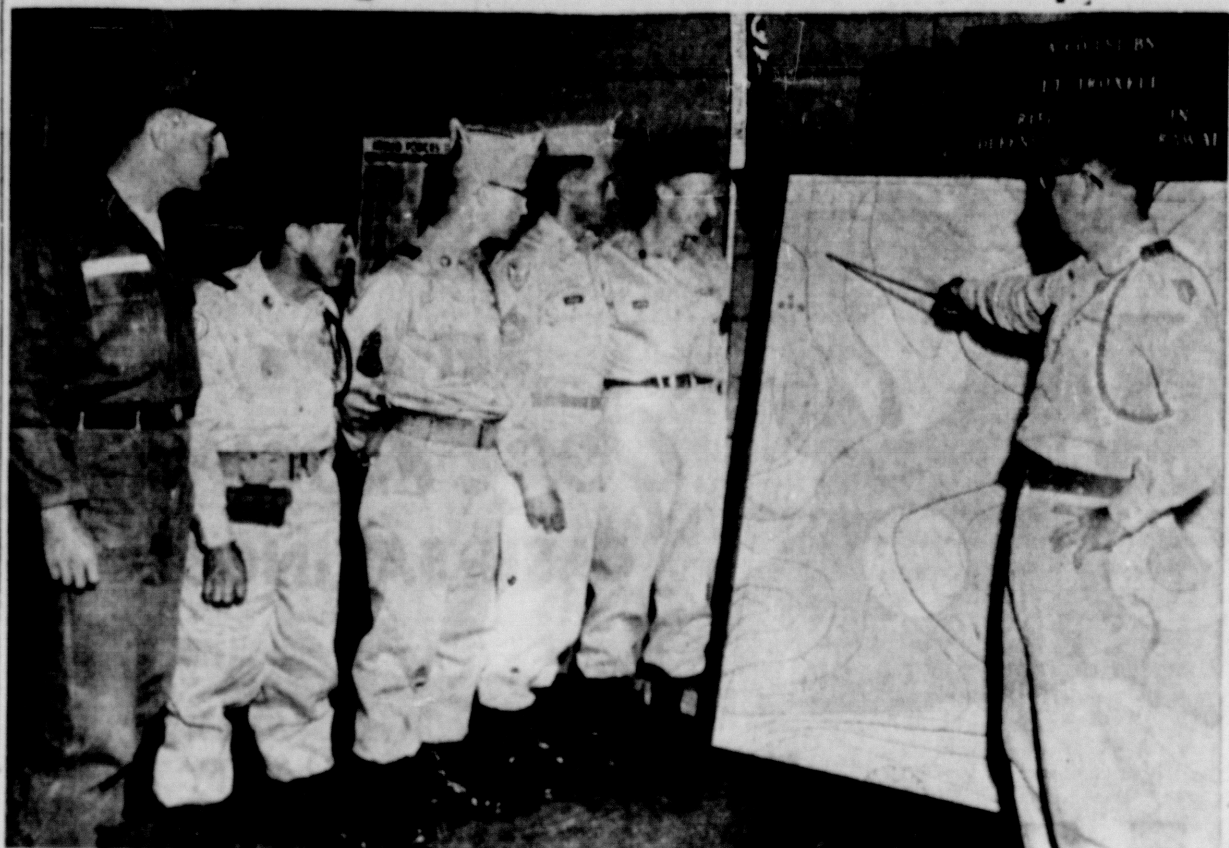

Today's negotiations session with Federal Mediator John R. Murray was postponed.

INTEGRATION FOR FARMERS TO BE STUDIED

By RICHARD L. GRAVES
HARRISBURG (AP) — Leaders of the nation's farmer cooperatives will study economic integration in agriculture at the 30th annual summer conference of the American Institute of Cooperation Aug. 24-27.

"This is a serious problem facing farmers and their organizations," declared George Myers, secretary-treasurer of the Pennsylvania Assn. of Farmer Cooperatives.

The conference will be held at Pennsylvania State University. More than 2,500 representatives of cooperatives from the United States, Puerto Rico, Canada and other foreign countries will join in discussions at the meeting.

Problems of Growth
Myers said the question of economic integration in agriculture will be the most pressing one discussed at the meeting.

"This is a problem of agriculture keeping pace with the growth of industry and labor," Myers said.

"Industry and labor, over the years, have been combining into

larger and larger units, which makes it possible for them to wield greater and greater bargaining power. The farmer of the past has been unable to keep pace with them," Myers added.

Economic integration in agriculture usually means organization or agreement between farmers and marketing agents designed to assure the producer of a market and the agent of a source of supply.

Over the years integration has taken many forms, the most common being a simple contract between a producer and a buyer. Since World War II, however, integration has become extremely complex in many farm industries — such as poultry — with

the result that farmer interests have often suffered at the hands of an organized market.

"Can't Do It Alone"
"The thing we are concerned about in agricultural organizations is the trend for the farmers' share of the consumer dollar to go down," Myers said.

"If the farmer is to hold the line, he must do it through his own organization," he noted, adding: "He can't do it alone. He has to be part of a corporation of his own and make some margin of profit on the processing and distribution of his production."

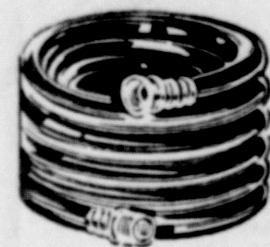

That's where farmer cooperatives step in. The co-ops act as marketing agents, and, in many cases, as purchasing agents since they can buy farmer production needs — fertilizer, oil, bags — at wholesale prices.

Good business and sharp business are two different things.

STORM CLOUDS LOOM OVER N. J. DAIRY INDUSTRY

By DONALD F. BOLLES
TRENTON, N. J. (AP)—A storm with dark thunderclouds is forming over New Jersey's dairy industry.

The state government and some dairy leaders are getting set for July and August.

Higher milk prices could result. A new factor in the dairy industry is responsible for dire predictions. This is the successful attempt of the powerful teamsters union to organize some milk farmers in New Jersey, New York and Pennsylvania.

Unionization of the farmers is being opposed by the N. J. Farm Bureau and other farmer groups, partly on the charge that the teamsters seek to expand their sphere to all agriculture eventually.

A week ago today a hush-hush meeting was held in the office of Atty. Gen. David D. Furman. It was attended by agriculture secretary Philip Alampi, milk handlers and milk farmer representatives.

From various sources the Associated Press has learned that the milk people wanted assurance that state and local police would not sit on their hands in case of violence. Furman admits there was some feeling police did not enforce the laws in the milk strike of February, 1957.

Ready To Act
Furman said he told the dairy

leaders that "in case there is any breach of the laws—any violence—we will throw in the full force of state police. We will follow up any complaints and make arrests if necessary."

The state's top level officer also pointed out that any combination of farmers and unionists to fix prices might be illegal but the dairy leaders should consult their own lawyers on this subject.

The union involved is Local 69 of the International Brotherhood of Teamsters, with headquarters in Milford, Pa.

Most of its members come from the old 4,000-member Tri-State Master Dairy Farmers Guild which drew thousands of unhappy milk farmers from the New Jersey - Pennsylvania, New York area around the northwest corner of New Jersey.

Pickets June 26
On June 25 the local unexpectedly put pickets at two milk receiving plants: The Honesdale, Pa., and Clifford, Pa. plants of Clemons Milk Products Inc. Some farmers gathered at the Lookout, Pa. plant of West Dairy Farms of Long Valley but no picket line was set up.

The quick strike put it on the line for Teamster truck drivers who carry the milk from receiving plants into the dairy processing and bottling plants. Would they back up the teamster-farmers?

One New Jersey local sent its trucks through the picket line, while another Scranton local halted its drivers.

The pickets were withdrawn two days later. Charles Cartwright, Teamster organizer and the guild's executive director, said the owners agreed to talk over grievances with the union. This was denied by Sam Goldberg, owner of Clemons. He said he made no agreement of any kind.

AF WEATHER PLANE FALLS

TUCUMCARI, N. M. (AP)—An Air Force weather reconnaissance plane spun in from two miles high late Wednesday and scattered wreckage over a two-mile area.

A spokesman from Laughlin Air Force Base, Del Rio, Tex., where the plane was based, said police misinterpreted orders and this led to a cloak of secrecy being thrown over the crash.

The pilot was Capt. Alfred V. Chapin Jr., 28, San Angelo, Tex.

Pilot Killed
The Laughlin spokesman said the U2 jet was on a routine weather reconnaissance flight when it crashed. He said it carried classified instruments, but there was nothing specially secret about it.

The spokesman said police were asked to aid the pilot if he were still alive, and if not, to "secure the area," meaning not to touch

RECESSION-HIT ECONOMY WILL RECEIVE BOOST FROM UNCLE SAM

By FRANK CORMIER
Associated Press News Analyst
WASHINGTON (AP)—The recession-hit economy will get a bigger boost from Uncle Sam in the next 12 months than the federal budget indicates.

The budget, according to expert estimates, will be 10 to 12 billion dollars in the red for the 1959 fiscal year that began July 1.

However, the military immediately cordoned off roads leading to the crash site and spectators were kept five miles from the wreckage on orders from the 2nd Air Command at Shreveport, La. Laughlin said the pilot was found dead in the cockpit.

That much deficit spending — spending of borrowed money, in effect — can add a good bit of zip to the business outlook. But that's only part of the deficit story.

Second Set of Books
Uncle Sam keeps still another set of books, and government experts are now guessing that these will show a deficit one to two billion dollars bigger than that in the regular budget.

The second set of books is kept on a cash flow basis. That is, it records the amount of money the government receives from the public, balanced against federal payments to the public.

Economists say cash flow is a good measure of the impact of federal financial operations on the income of the public as a whole.

For example, if the cash figures show a 12-billion-dollar deficit in government in effect will be adding roughly this amount to the public income.

Would Be Potent Prop
A fiscal transfusion on that scale would prove a potent prop under the economy. And if the recession has already touched bot-

tom, as some economists believe, it could give business a big push upward.

It's also significant that the effect of the deficit will be greater in the first half of the fiscal year, through Dec. 31, than in the second half. This is so because government revenues are scanty in the July-December period. Corporation tax payments are heaviest in the second half of the fiscal year.

The cash flow figures ordinarily show a smaller deficit than the budget statistics. For fiscal 1958, for example, some government economists estimate the cash deficit will be about a billion dollars less than the budget deficit.

No Better Tune
The cash accounts include Social Security and highway trust funds and some other items that aren't part of the regular budget. These special funds have shown a surplus in recent years. In fiscal 1959, however, more money will be paid out of these accounts than will be taken in.

That's why the cash figures this year will add to the economic

Cool Reception For Guard Slash Plan

WASHINGTON (AP)—A National Guard leader predicts a cool reception for a compromise Army plan to cut Guard strength by an estimated 40,000 men.

Maj. Gen. Maxwell E. Rich, president of the Adjutants General

impact of the budget deficit, instead of blunting its effect.

A lot of Americans who normally don't like red ink spending by the government may say it could not have happened at a better time — particularly if they are among the 5½ million unemployed.

Assn., said Tuesday night he doubts that the plan announced Tuesday by the Army will be acceptable to the National Guard.

The Army said the new plan was worked out after months of discussions with state governors and their National Guard leaders.

Rich, adjutant general of Utah and current president of the organization of state Guard chiefs, said in a statement that a special meeting of adjutant generals has been called for July 14-15 to study the plan.

Dartmouth basketball coach Doggie Julian coached the sport at Ashland, Pa. High School and once refereed 24 high school games in a 26-day period.

TIME RUNS OUT ON MISSING SON OF DOOMED MAN

JERSEY CITY, N.J. (AP) — John Wersinger Sr. is waiting for his son.

He doesn't have long to wait. The 64-year-old man is dying of cancer, and he knows it.

Four of his sons, a daughter and 10 grandchildren have gathered about Wersinger in his home here.

But one son is missing.

Time Running Out
John Wersinger Jr., 36, left Jersey City a year ago to work as a civilian guard at a military establishment in El Paso, Tex. He wrote his mother last month that he was giving up the job, and his parents have not heard from him since.

Wersinger's family appealed to newspapers to publish the story in the hope that John will read it and return home.

He has only a few days to do it.

BAND ATTACKS CHAMOUN'S SON

BEIRUT (AP) — A band of armed men attacked the apartment of a son of President Camille Chamoun with small-arms fire in a four-hour gun battle Tuesday night.

Eyewitnesses said the President's son and wife were unhurt. At least 4 of the 20 attackers were reported killed and three of the guards defending the building were wounded.

Attempt To Intimidate

The attack apparently was an attempt to intimidate the pro-Western President, whose resignation the rebels are demanding.

President Chamoun in an interview Tuesday night said he definitely plans to step down when his six-year term ends Sept. 24. The insurgents, when they launched their rebellion, charged that the President planned to push through a constitutional amendment so he could succeed himself.

"Mac's Butchers" To Return Flags

PORTLAND, Ore. (AP)—"MacArthur's Butchers" are planning to return the Japanese battle flags they fought so bitterly to gain in the South Pacific jungles of World War II.

Veterans of the 41st Infantry Division, the outfit Tokyo Rose called "MacArthur's Butchers," plan to turn in their captured battle flags at a reunion July 18-20 for return to the families of Japanese soldiers from whom they were taken.

Lettering on the flags will be translated to determine to whom they should be sent.

RACKETS GROUP CALLS ACCARDO, GANGLAND BOSS

By EARL AYKROID
CHICAGO (AP)—Tony Accardo, swarthy boss of the Chicago underworld, is a husky, ill-tempered gang lord who lives in lavish style in a huge, ornate home in one of Chicago's most exclusive suburbs.

Often termed the successor to the late gang leader Al Capone, for whom he served as bodyguard, the 52-year-old Accardo is under subpoena to appear before the Senate Rackets Committee in Washington during current hearings into underworld activities.

It's not likely that the committee will get much information out of the tight-lipped gang boss. Another Senate committee headed by Sen. Estes Kefauver (D-Tenn.) tried in 1951 but got nowhere. Accardo gave the committee little more than his name.

Dove Tattoo
Always well tailored, Accardo is a solidly built man of about 5 feet 10 inches and weighs nearly

200 pounds. Dark complexioned, he has dark hair, graying at the temples. His right hand bears the tattoo of a dove.

With his wife and three children, he lives in a big stone mansion in suburban River Forest worth an estimated half-million dollars. Handsomely landscaped, the Accardo home is surrounded by a high wrought-iron fence. The home has 22 rooms, an indoor swimming pool, two bowling alleys, a pipe organ, six master bedrooms.

Three of the six bathrooms have gold-plated fixtures. One has a bathtub that reportedly cost \$10,000, cut from a solid block of Mexican onyx.

Accardo frequently holds lavish garden parties for his gangland associates.

Wright To Check Americans' Release

QUANTANAMO, Cuba (AP)—Adm. Jerauld Wright, commander of the U.S. Atlantic Fleet, was due here today to inquire into the delay in the release by Cuban rebels of 30 kidnaped American servicemen.

Fidel Castro's men freed the last two captive American civilians Wednesday, leaving only the

sailors and Marines plus one Canadian civilian in the rebels' jungle camps.

The Navy obviously is growing impatient at the delay in getting its men back. Nineteen civilians have been released so far but no servicemen.

Released Wednesday were Albert M. Ross, 51, Houston, Tex., and James D. Best, 32, New Or-

leans and St. Matthews, Ky. Both were in excellent health.

LONDON (AP)—Actress Jayne Mansfield said today that she is going to have a baby.

The curvy American film blonde said the birth is due in December. She and muscle man Mickey Hargitt, 29, were married last Jan. 13.

Best Unit In Regiment Again

Company A was again named the best unit in the 313th Infantry Regiment at summer camp this year. For this distinction the unit retained the white streamer attached to the guidon. The unit also was "best in the regiment" at summer camp in 1957.

Helping to retain the banner for the unit are the following members who received awards and commendations at this year's camp. They are, first row, left to right: Sfc. Terry R. Goodermuth, Gettysburg R. 3, drill sergeant for the prize-winning, 35-member drill team from the unit; Pfc. Roy K. Millhimes, 8 N. Peter St., New Oxford, high scoring rifleman in the unit; Pfc. Jay H. Hartzell, 163 Carlisle St., jeep driver for the first battalion's commanding officer; Sfc. Gerald E. Brough, Bendersville, and Cpl. William E. Rupp, Aspers R. 1, leaders of the high-scoring team in weapons firing.

Second row: M/Sgt. Nile R. Little, Aspers R. 1, first sergeant; Cpl. Frederick G. Kauffman, 240 S. Franklin St., who served as battalion motor officer; Sgt. Cyril F. Hagerman, New Oxford R. 1, mess steward; M/Sgt. Harry C. Strevig, 535 W. King St., Littlestown, supply sergeant, and Sgt. Robert D. Morecraft, Carlisle R. 5, who placed second in the 79th Infantry Division with the .45 cal. pistol. (Times photo)

JUAREZES HAVE FAMILY FIGHT AT IDLEWILD

NEW YORK (AP) — Gregg Juarez, whose marriage to his 18-year-old British heiress wife has been reported on the rocks, snatched their baby daughter from her arms Tuesday at Idlewild Airport.

Juarez, 33, an interior decorator, pushed his way onto a plane and grabbed the baby, 8-month-old Bianca, just before the plane was to take off for Nassau, the Bahamas.

He also handed Mrs. Juarez separation papers.

Wife Leaves Plane
His wife, the former Frederika (Bobo) Sigrist, left the plane before it took off, and hurried away.

"She can go if she likes," Juarez told newsmen, "but she can't have Bianca. I love the baby. I'm going to protect her American citizenship."

Juarez said he returned to his rented estate at Locust Valley, N.Y., on Long Island, Tuesday and found his wife and child gone. He drove to the airport to intercept them.

His wife has a home in Nassau.

Will Take Wife Back

Juarez said he would take his wife back "if she wants to come back and be a proper wife and mother and live within our means and take up her domestic duties."

Mrs. Juarez's father, Frederic Sigrist, was a founder of the Hawker Aircraft Co., British plane manufacturers. He died last year, leaving an estate of about five million dollars.

The Juarezes eloped in January 1957.

CHICAGO WILL NOT SPONSOR GRAHAM

CHICAGO (AP) — The Church Federation of Greater Chicago says it will not sponsor a "crusade" in Chicago by evangelist Billy Graham.

Officials said Tuesday night the decision was based on a poll of the federation's member bodies and advice from nonmember groups. They said the poll showed that churches with a total mem-

bership of about 338,000 favored a crusade, and churches with a total membership of 693,000 were either openly opposed to one or did not wish to express an opinion. The Rev. Dr. John W. Harms, executive vice president of the federation, said: "Under these circumstances, it clearly was unwise for the federation to be involved officially in a project over which there would be the prospect of much controversy."

TEEN-AGERS TO STAGE "BETTER LYRIC" CONTEST

MINNEAPOLIS, Minn. (AP) — A group of Minneapolis teen-agers who say popular songs may encourage delinquency has decided to do something about it.

They have opened a national "Better Lyrics" contest with \$500 in prizes for the five best sets of lyrics by boys and girls in the 13-to-19 age group. The contest is being promoted by 510 students who are members of Contact, a Catholic movement for high school students. Money for the prizes is being provided by the Catholic parents organization of Minneapolis.

Song Comments

This is what they say about some current popular songs:

"Wear My Ring Around Your Neck"—encourages going steady, which members of the group oppose.

"Yakety Yak"—implies that parental requests for little jobs around the house are nothing but nagging.

"All the Way," and "Witchcraft"—suggestive. As for the contest, no music is required, just lyrics.

A man with an axe is grind ought to turn his own grindstone.

80 Children Thrown Into Water By Squall

GREENWICH, Conn. (AP) — More than 80 children were tossed into Long Island Sound Tuesday by a sudden squall that disrupted a sailing race and overturned nearly 40 boats. All were saved. Three U. S. Coast Guard cutters, two planes and a small armada of private boats converged on the scene off the Riverside Yacht Club.

A regatta official said a majority of the 113 boats that took part in the junior yacht race had already finished when the squall hit.

Patty Miller, 13, Mamaroneck, N. Y., suffered the only injury—a broken leg.

At the International Exhibition in Belgium, guides are available who speak in six languages. There are also guides who speak in Esperanto, the international language.
